## 18 HP power and reliability, for heavy industries

The series 3907 / 18 ATEX are the right I-Vacs for the industries who have to work in potentially explosive atmospheres as the Directive 94/9/EC and 99/92/EC state.
This vac offers high performances while still being extremely manoeuvrable and versatile. It mounts a Threephase Side Channel Blower that guarantees a silent and continuous running. The suction unit is controlled by an electrical equipment with a star-triangle starting as standard, housed in the rear casing. It gets a large Stainless Steel container and an Antistatic Star filter in "L" class as standard.

Picture shown may not represent model quoted

- Reliable
- 3 Phase aluminium casting induction motor directly driven to the fan
- Maintenance-free
- Continuous use
- Very high performance levels
- Large Primary Antistatic L Class Star Filter
- Efficient
- electrical filter cleaning system
- Vacuum gauge
- Removable and very capacious stainless steel bin
- Watertight Control panel with Star-Triangle starting
- Higlhly manoeuvrable
- ATEX Versions (Directives 94/9/EC and 99/92/EC)
