Electrically powered high pressure washers

Electrical powered stationary heating for maximum efficiency in the automotive, industrial, food and shipping sectors. Electrical heating is exhaust gas and pollution free.
The SH SOLAR E line is equipped a large 119 l heating tank and can be produced in several heating sizes from 18 kW to 54 kW depending upon the temperature requirements and available electrical network. Electrical heating is pollution free. The integrated PLC enables machines to be personalized with a range of factory mounted options.
A feeder pump prior to the high pressure pump ensures that the machine can reliably produce a max temp of 85°C, pre-heated in the tank placed before the pump. Thanks to the pre-heating tank, hot water is available as soon as the spray gun is activated.

- Expandable control technology with PLC and special options
- Automatic diagnosis and fault finding
- Pollution free, heating system
- Galvanised steel frame and cabinet
- Reduced running and service costs
- Large 119 L heating tank for excellent heating capacity
- Available up to 54 kW heating
- C3 longlife pump with 4 ceramic pistons
