Welding and Grinding table

- Easy to install
- Sturdy industrial design
- Flexible in terms of installation possibilities

The industrial welding and grinding table for extracting fumes, dust and particles from welding and grinding operations. It can also be used in explosive environments, if grounded accordingly. The table is not suitable for cutting. The table can be used to suspend the welding torch when not in use. Underneath

the working area a dust drawer takes care of the heavy dust. The drawer can easily be emptied from the front of the table. The duct connection for the external fan is located on top of the table and it is recommendable to use a filter device between the table and the fan.
