Extraction Arm Original

- A swivel allows the product to rotate 360 degrees
- Flexible extractor in all directions and simple to position.
- Damper in the hood as standard
- Thousands of installations worldwide

The Original welding fume extraction arm is the perfect solution for extracting welding smoke, fumes and dust in workshops. Our extractor's patented design ensures optimum fume and dust capturing capacity and maneuverability. The extraction hood has integrated easy-to-reach buttons for lighting and fan control. The extractor is suspended by a swivel, which allows the product to rotate 360 degrees. This makes the extraction arm flexible in all directions and very simple to position. The Original extraction arm can be mounted in combination with different brackets, extension arms, on exhaust rails or on fixed or portable filter equipment. The product is equipped with a damper in the hood as standard. The welding fume extraction arm is available in lengths from 2-5 m (6,6-16 ft), and can be mounted on a ceiling, wall or bench or to an extension bracket. A wide range of accessories give unlimited possibilities to match the needs at any workplace.
